

## **ANNEX I**

### **Requirements of researchers**

Requirements of the main researcher.

1. The funded projects will be executed by research teams led by one or two IP. The IPS and the people who make up the research team will be the main responsible for the objectives and tasks of the project.
2. The PI must meet the following requirements from the closing date of the application period: submission of applications until the end of the project execution period:
  - a) Have a doctorate degree. In the case of researchers who have more than one doctorate, this requirement will refer to the first of the doctorates obtained.
  - b) That the main researcher belongs to a research group linked to a university, a national or international research center.
  - c) That the main researcher has a minimum experience of 5 years
3. The work team will be made up of those people who participate in the execution of the project and that do not appear as IP
